

CRAY-PAS®

BRIGHT, BLENDABLE
VIVID COLORS

ABOUT SAKURA

To be human is to be uniquely creative. We have a drive to create—new ideas, stories, products, art, and more. While technology will change the way we live, only we as humans have the particular ability to imagine and unlock possibility. At Sakura of America, we foster this incomparable human capability to think, dream, experiment, and connect.

We know everyone is capable of creativity. This trait is within everyone, not just select people. Whether you are using our products for artwork, expression, problem solving, storytelling, or organization, creativity is at the core—allowing us to connect with ourselves and with others. We believe if you foster your creative abilities, you can reach your full potential.

We encourage people to take a moment to explore how creativity unlocks new perspectives, self discovery, and human connection.

Sakura—A world of possibility powered by human creativity.

JUNIOR ARTIST®

Invented in 1921, Sakura is the original inventor of oil pastels. Cray-Pas Junior Artist provides beautiful and blendable color for young hands. The best art curriculums nationwide use Cray-Pas to teach and practice art introductory techniques. Cray-Pas oil pastels can create oil paint effects, will not peel, crack or flake, are easily blendable, and are safe for children. The round shape of Cray-Pas Junior Artist is easy to hold, and are great for drawing, lettering, scratch art, and long lasting sidewalk art. A special chubby size stick of Cray-Pas Junior is also available for little hands to grasp. Cray-Pas are excellent on paper, cardboard, and canvas.

EXPRESSIONIST®

Today, the finest elements continue to make up the Cray-Pas family of oil pastels. Cray-Pas Expressionist oil pastels are the standard by which all other pastels are measured. The Expressionist color range allows students, hobbyists, and professional artists to achieve a range of painterly effects. Expressionist oil pastels are extremely smooth to apply, can create broad strokes, and allow the user to blend colors to build texture and depth. The unique Cray-Pas Extender is a colorless oil pastel, further extending any Expressionist color for the continuation of hues.

SPECIALIST®

Cray-Pas Specialist oil pastels provide professional artists with superb, creamy texture that facilitates blendability, and can be used in combination with a variety of painting mediums. The range of colors is ideal for fine art, commercial art and illustration. Impasto and subtle color wash effects are possible with the use of Specialist Extender which distributes color to create impressive effects.
