

Koi®

RICH, BLENDABLE COLOR

ABOUT SAKURA

To be human is to be uniquely creative. We have a drive to create—new ideas, stories, products, art, and more. While technology will change the way we live, only we as humans have the particular ability to imagine and unlock possibility. At Sakura of America, we foster this incomparable human capability to think, dream, experiment, and connect.

We know everyone is capable of creativity. This trait is within everyone, not just select people. Whether you are using our products for artwork, expression, problem solving, storytelling, or organization, creativity is at the core—allowing us to connect with ourselves and with others. We believe if you foster your creative abilities, you can reach your full potential.

We encourage people to take a moment to explore how creativity unlocks new perspectives, self discovery, and human connection.

Sakura—A world of possibility powered by human creativity.

COLORING BRUSH PENS

Koi® Coloring Brush Pens are a convenient way to add vibrant color to any sketch, journal, cartoon, illustration, or rubber stamps. The 48 transparent ink colors blend easily to create a multitude of hues and effects. Use the colorless blender pen to create seamless washes and color gradations. Make fine, medium or bold brush strokes just by changing the amount of pressure to the nib.

POCKET SETS

Capturing the moment is easy with Koi® Water Color Field Sketch Kits. Portable watercolor sets are perfect to bring along whether you're going to the countryside, relaxing at the beach, or walking urban landscapes. The watercolor kit is lightweight and features half pan watercolor paints, formulated to blend easily and create an endless range of colors with a refillable water brush.

CAC

Koi® CAC are pocket sized with essential accessories for painting on the go. Create your own unique washes and blends with the metallic, fluorescent, and pearlescent paints. Explore a whole new spectrum of stunning effects by mixing these Creative Art Colors with your traditional watercolor set.

STUDIO SETS

Keep these larger sets close by in your studio for a quick splash of color and to create deep washes for backgrounds. The rich color assortment offers the choice to create bold hues or soft and subtle shades. With the convenience of such a wide assortment of paint colors the possibilities are endless.

TUBES

Koi® Tubes allow for versatility in correction and layering, and give the artist the ability to create washes with soft edges and dynamic color possibilities. Koi's smooth and vibrantly pigmented colors instantly respond to water, are quick-drying, and contain a special binding agent for even brush suspension.

WATER BRUSH

Koi® Water Brushes are designed for the easy transportation and storage of water when you're away from home or the studio. The brush separates into two parts: a fine, flexible brush tip, and a barrel handle with a plug to carry the water. The comfortable grip is great for controlled blending, shading, and highlighting. The Koi Water Brush is available in three brush and two barrel sizes for maximum versatility.
