ABOUT SAKURA

To be human is to be uniquely creative. We have a drive to create—new ideas, stories, products, art, and more. While technology will change the way we live, only we as humans have the particular ability to imagine and unlock possibility. At Sakura of America, we foster this incomparable human capability to think, dream, experiment, and connect.

We know everyone is capable of creativity. This trait is within everyone, not just select people. Whether you are using our products for artwork, expression, problem solving, storytelling, or organization, creativity is at the core—allowing us to connect with ourselves and with others. We believe if you foster your creative abilities, you can reach your full potential.

We encourage people to take a moment to explore how creativity unlocks new perspectives, self discovery, and human connection.

Sakura—A world of possibility powered by human creativity.

PERMAPAQUE®

Hand letter signage, design works of art, and create large murals with colorful, opaque, pigmented Permapaque® markers. Permapaque marker technology allows the user to paint with a pen, without the mess or pumping required of a traditional paint marker. These pigment-based markers come in 20 colors that perform on a variety of surfaces including paper, vellum, wood, metal, and plastic.

Available in 2 styles:

- Fine point for general drawing and detail coverage
- Dual point with a chisel nib for wider coverage and a bullet point for accents and detail.

PENTOUCH® & PENTOUCH CALLIGRAPHER

Make bold marks in shiny metallics and bright colors on crafts; apply a festive touch to holiday ornaments, cards or invitations; record a personal note or day of remembrance on a bottle of wine. Writes on a wide variety of surfaces including cardstock, plastic, wood, glass, porcelain, paper and metal in opaque and metallic colors. Write on a variety of surfaces as the paint flows from the chamber directly to the tip of the marker.

IDENTIPEN®

Identi-Pen is a multi-purpose pen that marks on almost any surface. The dual point IDenti-pen is two, permanent sharp-pointed marking pens in one: a tough fiber nib tip, fine-point bullet nib on one end and an extra fine plastic tip for details on the other. Use this pen on paper products and non-porous surfaces such as metal, glass, tools, sporting goods, test tubes, photographs, plastics, vinyl, wood products, and labels.

MICROPERM®

Microperm is an ultra-fine line, waterproof, permanent ink pen. The alcohol solvent, dye-stuff colorant ink will mark on nearly any surface including metal, glass, plastic, wood and cellophane. With three fine nib sizes, it is an ideal product for incredible detail, precision and permanence.
