

UNPARALLELED ARCHIVAL INK

## ABOUT SAKURA

To be human is to be uniquely creative. We have a drive to create—new ideas, stories, products, art, and more. While technology will change the way we live, only we as humans have the particular ability to imagine and unlock possibility. At Sakura of America, we foster this incomparable human capability to think, dream, experiment, and connect.

We know everyone is capable of creativity. This trait is within everyone, not just select people. Whether you are using our products for artwork, expression, problem solving, storytelling, or organization, creativity is at the core—allowing us to connect with ourselves and with others. We believe if you foster your creative abilities, you can reach your full potential.

We encourage people to take a moment to explore how creativity unlocks new perspectives, self discovery, and human connection.

*Sakura—A world of possibility powered by human creativity.*

ARTWORK BY JANET TAKAHASHI

## BRUSH

Pigma Brush is a flexible brush-tipped pen that responds to instant changes in pressure or direction. This special formulation of pigment-based ink is more complex and stable than dye based inks. Illustrators, manga artists, cartoonists, calligraphers, and hobbyists can put pen to paper and leave a mark that will last a lifetime.

## CALLIGRAPHER™

Unlike most calligrapher markers whose tips wear down with use, resulting in inconsistent, increasingly heavy marks, the Pigma Calligrapher maintains its ability to continually create crisp, flowing lines and letterforms. The Pigma® Calligrapher™ is a unique, all-in-one, durable lettering art tool that produces crisp edges and sharp hairlines. This disposable pen has a hard nylon nib that withstands heavy pressure and constant use, and still provides a reliable, smooth ink flow from edge to edge.

## GRAPHIC™

When artists want dark, bold pen strokes that last, they turn to Pigma® Graphic™ with archival Pigma® ink. The three large bullet and chisel nibs are designed to meet the specific needs of illustrators, cartoonists, calligraphers and manga artists by enabling a broad range of techniques.

## MANGA COMIC PRO

Visit any library, bookstore, or media retailer and you will see that superhero comics and manga (Japanese comic illustration) have captured hearts and imaginations everywhere. Preferred by illustrators around the world, Sakura offers a full selection of illustration tools for recreating your favorite animated characters or inventing new heroes of your own. Sets feature a pencil and assorted Pigma Micron, Graphic, and Brush pens.

---

## MICRON®

Pigma® ink, invented by Sakura over 30 years ago, continues to be the most reliable permanent ink on the market today. Artists, consumers, the government, and scientists consider Pigma Micron a necessary basic tool for any archival-quality, handwritten project. Use Pigma Micron to leave a mark that will last a lifetime. Manga artists, professional illustrators and watercolorists use the seven point sizes to create precision lines.

---

## PROFESSIONAL BRUSH

From super fine hairlines to big, bold strokes, the new Pigma Professional Brush series offers the ultimate in versatility. These durable brush nibs respond to instant changes in pressure or direction with a silky smooth, accurate and consistent ink flow. The deep black, archival quality Pigma® ink ensures the mark will last a lifetime. The brush nibs were specially developed to provide fantastic bounce and memory over long periods of use.

---

## SENSEI®

Learn to draw like the pros using the same rich, black Pigma® ink that's been the trusted ink of Manga professionals for over 30 years. Pigma Sensei drawing sets include the tools you need to illustrate in the Manga or comic style. Use chisel nib inking pens for sharp lines and filling in large spaces. Use fine lines for facial expressions, lettering, and detailing, or bold lines to add impact and drama.
